

Cleaning is Just the Beginning

Here is a list of some of the many services that Professional Carpet Systems offers. Just put a **check mark** by any that you have an interest in or would like more information on and your Professional Carpet Systems Cleaning Specialist will be happy to assist you.

Yes, I'm interested...tell me more

└ Pet Odour Location & Removal

No matter how careful we are with our pets, accidents can happen. The most common is urine, a real problem, because it leaves a residue of uric salts which never "dry", causing the odor to constantly return when these salts are exposed to any type of moisture, or even high humidity. Professional Carpet System's two part Professional Enzyme Treatment is what you will need to cure the resulting problem, as it is formulated with natural enzymes that will "eat" the uric salts until they are all gone therefore eliminating the odor source.

└ Spot & Stain Removal

No one has pioneered more stain removal techniques than PCS. Kool Aid® and other difficult stains are often completely removed or barely visible after we apply our unique removal methods. Show us your problems and let us give you our competent evaluation.

└ Carpet Repair and Re-stretching

Whether it's a burned hole, a small tear, or a complete re-stretch, Professional Carpet Systems has the know-how and tools to do the job right. And we guarantee our repairs for the life of the carpet.

└ Upholstery Cleaning

Let us professionally clean and protect your fine upholstered furnishings. After careful inspection and testing of the fabric, we use a combination of hand and machine cleaning with special solutions and products specifically formulated for upholstery to give the best and safest cleaning. Whether they are durable synthetics, leather, or natural fabrics, Professional Carpet Systems will make them look great!

└ Mattress Cleaning, Sanitizing & Protection

When is the last time you cleaned your mattresses? Undesirable critters and dust mites feed on the dead skin cells that our bodies are constantly shedding. Let us deep clean and sanitize your mattresses and protect them with genuine 3M Scotchgard®. You'll sleep more soundly knowing that they are properly cared for by our Certified Cleaning Specialists.

└ Area Rug Cleaning

Oriental, Carved, Throw, Hook, Dhurie...any type, material, any size, you name it and we clean it, safely and effectively. Simply give the rug to our Cleaning Specialists to be taken back to our plant for a FREE Quotation! Area rugs are cleaned best under controlled conditions, which is why we prefer to clean them at our plant. There is NO EXTRA CHARGE for pickup with a carpet or upholstery job.

└ Allergy Relief Treatment™

No matter how spotless your home, it is impossible to eliminate or clean away dust mites. And most people can't bear to part with a beloved pet even though this is the number one recommendation of doctors.

The secret of the ResponsibleCare System is the use of specialized cleaning agents followed by application of Allergy Relief Treatment™ on carpets, mattresses, upholstery, rugs and bedding.

└ Automobile/RV/Boat Carpet & Upholstery Cleaning

Don't forget that your cars and trucks have upholstery and carpet in them that may need attention, and if you have a boat or an RV, even an airplane, we can clean and protect them while we are at your home or business establishment.

└ Carpet Dyeing and Re-tinting

Our proprietary carpet dyeing system salvages carpet that would otherwise have to be replaced, thus saving our customers hundreds, if not thousands of dollars over replacement. Has the color in your carpet lost its pizzazz? Colorizing or Tinting may be just what your carpet needs to be restored to its original luster.

└ Spot Dyeing Bleach Stains & Other Color Loss

Our specialized spot dyeing process allows us to re-color bleached spots and other color loss without cutting or replacing the carpet. You thought the carpet was ruined? Not with PCS around.

General Odor Removal (Smoke, & Other Impregnated Odors)

Have you got some smells such as smoke or other stubborn odors in your home or business? We are experts in locating and permanently removing odors. We don't just mask odors, we remove them...completely and permanently.

Groomit (Carpet Grooming)

You're going to love the way your carpet looks after your certified Professional Carpet Systems Cleaning Specialist performs the final step of our service with the finishing touch of grooming. Now you can purchase a residential version of the same nifty tool that gives your carpet that fluffy new look. Removes up to 23% of embedded soil.

Tile & Grout Cleaning

Does your tile or grout look dingy or has it lost it's sheen? Then you'll be glad to know that Professional Carpet Systems can rejuvenate and remove years of buildup between tile, and we can reseal it for increased protection and improved appearance.

Dustless Wood Floor Refinishing

Our revolutionary wood refinishing system eliminates that high cost and time consuming hassles of sanding and refinishing your wood floor. Our advanced floor finishing technology requires no messy sanding and it works in just one day. It is the best solution for you and your wallet.

Expert Vehicle Detailing

Why go anywhere else when Professional Carpet Systems can give you the best prices and selection of services. We have teamed with 3M Canada to provide the most complete and thorough cleaning systems you can imagine. From dyeing to waxing, from engines to interiors. PCS and 3M – what a winning combination!
